PROJECTS

EV Charging Station Locator (Android Application)

- Led a team of three as the **Lead Developer** in building an Android application that allows users to locate nearby **EV charging stations** and navigate to them.
- Developed the application using **Google Maps API** for real-time location tracking and navigation.
- Integrated **Firebase** and **SQL Server** for efficient data storage and retrieval.

Online Store (React E-commerce Website)

- Developed a **fully functional e-commerce website** using **React, HTML, CSS, and JavaScript** for the frontend.
- Integrated **Firebase** as the backend for user authentication, product management, and order processing.
- Implemented essential features, including **product listing, shopping cart functionality, and payment gateway integration**.

EXPERIENCE

Front-end Web Developer Sept 2023 – Oct 2023

Apiero Medica

Interned as a Front-end Developer on the 'Port Eight' project, a supply chain solution.

Developed user interfaces Using React to enhance the project's functionality. Collaborated with design and backend teams to ensure smooth Integration. Played a key role in improving user experience through intuitive UI designs and responsive layouts. Successfully delivered
